# HOT SNACKS

Our hot snack range is designed to meet all tastes and dietary requirements.

Winner of the prestigious Onboard Hospitality Award for on board snacks is our box of Fries in the Skies. Easy to heat to create a tasty crispy treat, the snack can be paired with Jean Bâton black truffle or vegan mayonnaise as the perfect accompaniment.

Our popular frozen pizza and bruchetta range is designed for their simplicity and appeal with a shelf life of up to 450 days. A choice of ham & cheese or caprese panini make an ideal small snack.

Our German currywurst is proving a great success, featuring a (pork or turkey) sausage served with a traditional German curry sauce in a simple-to-heat tray weighing 200 g. Usually served with fries or a bread roll, the ambient dish has a shelf life of up to 180 days.

Hot pots are a great solution for people on the move and you can never go wrong with serving pasta or risotto in these simple attractive cartons. Each weighing 70 gr with a shelf life of up to 420 days, snacking couldn't get simpler.

With the increasing demand for Asian-fusion food, our noodle cups come in a range of vegetable and protein flavours in addition to our Asian style instant ramen pots.

# CURRY WURST

## GERMAN STREETFOOD

The most popular German streetfood snack finds its origin in Berlin where in 1949 Herta Heuwer combined a German sausage with a new sauce. After she mixed ketchup (or possibly Worcestershire sauce) with curry powder from British soldiers in Germany, the Curry Wurst was born. The dish is usually served with French Fries or a bread roll.

## THE GOLDEN ROLL

The brand dedicated to the category of the tastiest plant based rolls introduces the 'Golden Roll'.

A crispy golden brown puff pastry roll filled with deliciously tender oyster mushroom.

It combines the taste experience of the classic sausage roll with a much better carbon footprint and health benefits. The game changer is the mushroom that we use. It naturally gives a savoury taste and a tender bite. These mushrooms are circular grown in the Netherlands under perfect conditions.

We believe that is important to go further than vegan. Bringing balance in our food system is about dedication to quality and logic. By making awesome tasting products that take a much smaller quantity of water, CO2 and energy to produce we ensure that more people enjoy sustainable food.

Please try the Golden Roll yourself and experience how easy it can be to eat better.
