Tapas

Our award-winning tapas and antipasti platters are proving popular with passengers all over the world.

Traditionally served before a main course and an essential ingredient of any Mediterranean kitchen, this gourmet collection of premium cured meats, speciality cheeses, dips and olives are simple to serve in a box or on a platter and are perfect as a sharing option.

For a truly impressive meal solution, our platter tray comes with a range of options including Lonza prosciutto, Serrano ham, Beef salami, Iberico cheese, Provolone cheese, Iberico Cheese and Manchego. Additional delicacies can include hummus, mini fuets, sundried tomatoes and green olives with a delicious assortment of crackers or grissini.

You simply make your selection from the range of products and flavours and leave us to do the rest. The shelf life of these platters is up to 62 days.

Our extensive snack range is designed as a complimentary offering and Buy on Board for passengers and comes in all shapes, flavours and sizes. Bites and crisps include pretzels, nachos, olives, bread sticks and our nut selection can be custom-made in individual packaging and different weights range from 40-60 gram.

Basically, any snack goes and we are happy to work with you to supply a mini bite or a satisfying healthy mini meal to be eaten at leisure.

Hot snacks

Our hot snack range is designed to meet all tastes and dietary requirements.

Winner of the prestigious Onboard Hospitality Award for on board snacks is our box of Fries in the Skies. Easy to heat to create a tasty crispy treat.

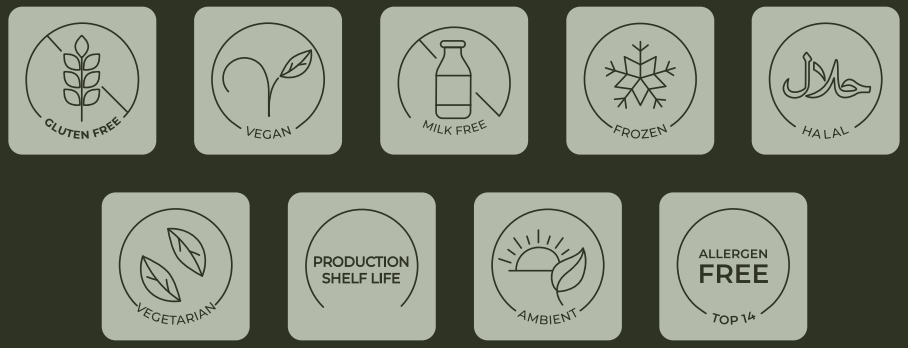

Our popular frozen pizza and bruschetta range are designed for their simplicity and appeal with a shelf life of up to 450 days. A choice of ham & cheese or caprese panini make an ideal small snack.

Our German currywurst is proving a great success, featuring a (pork or turkey) sausage served with a traditional German curry sauce in a simple-to-heat tray weighing 200 g. Usually served with fries or a bread roll, the ambient dish has a shelf life of up to 180 days.

Hot pots are a great solution for people on the move and you can never go wrong with serving pasta or risotto in these simple attractive cartons. Each weighing 70 gr with a shelf life of up to 420 days, snacking couldn't get simpler.

With the increasing demand for Asian-fusion food, our noodle cups come in a range of vegetable and protein flavours in addition to our Asian style instant ramen pots.

Packaging solutions

Foodcase offers a wide range of standard and bespoke packaging solutions, tailored for both Economy and Premium service concepts. Our packaging can be configured to fit any meal setup and is optimized for efficient (trolley) loading and galley handling. We work with various materials such as CPET, RPET and natural fibres like bagasse, always aiming for the right balance between functionality, presentation and sustainability.

Packaging solutions

We work together with you to find the right packaging solutions for your projects!

We work with sustainable, personalized solutions which will allow you to create stronger branding, better experiences and unique presentations for your customers. From individually packed mini snacks to complete boxed concepts, meal sleeves to pizza boxes.

We have got you covered!

Tell us about your ideas and we will bring them to life.

Special meals

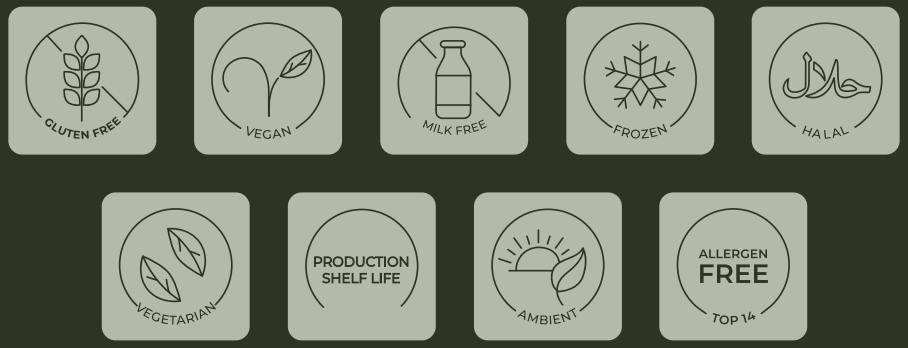

Special meals

Foodcase and our partners have worked tirelessly to create the right delicious allergen-free recipes, a dedicated free-from environment for production, distribution, and allergen guaranteed onboard experience for passengers. These meals are suitable for all travel sectors, from plane to train and cruise.

Foodcase looks to cater for the needs of the Special Meals passenger. The rise in food allergies, special dietary needs and different lifestyle choices require a new way of doing things. Many companies cannot guarantee their meals from being allergen free and have the much-maligned alibi statement or “May Contain¨ caveat, making them entirely unsuitable for passengers travelling with food allergies.

Our unique special meal boxes are fully biodegradable, tamper-evident and designed to be held in the freezer.

The main meal can be removed and placed in the oven. The heated meal box then inserts at the side for the cabin crew to hand to the passenger. The box has a tear strip for the passenger to open at the front, making it easier to eat.

All boxes contain a bread roll, low salt, pepper, cutlery and a napkin.
All meals are gluten, nut, peanut and sesame-free and produced in an allergen-controlled environment.

SPECIAL MEALS include our top 14 allergen free meals in all cabins, meals for lifestyle, dietary, religious and other requirements.

Special meals - frozen

Embark on a culinary adventure with Foodcase International's exquisite line of frozen, allergen-free meals, crafted to delight the palate while catering to dietary restrictions. Our special range offers a diverse selection of gourmet dishes, meticulously prepared and frozen at the peak of freshness, ensuring each bite bursts with flavor.

Indulge in a world of culinary possibilities, from savory pasta dishes to succulent roasted vegetables, all carefully curated to accommodate various allergens without compromising taste or quality. Whether you're craving a comforting lasagna or a zesty stir-fry, our meals provide a hassle-free solution for those with dietary sensitivities.

With Foodcase International, convenience meets culinary excellence, allowing you to savor restaurant-quality meals in the comfort of your own home. Simply heat and enjoy, knowing that each dish is crafted with the utmost care and attention to allergen-free standards. Elevate your dining experience with our frozen specialties, where flavor knows no bounds and allergens are simply left out in the cold.

Special meals - ambient

· **Reduced food waste**
· **Simplified non-frozen supply chain**
· **Same quality as a frozen meal**

Ambient meals are more sustainable as you save on the immense cost, emissions and energy pollution of freezing during transit.
The meals long shelf-life reduces storage energy—along with not needing to be fozen or refrigerated, they should be stores in a dark room, reducing energy for lighting. The meals like to be starved of oxygen; I know sounds like torture, but a cool, dark dry, storage location really is best. The seals are tamper-evident.

At Foodcase our sustainability initiatives extend across our entire supply chain, starting with responsible sourcing that prioritizes locally grown ingredients, supporting local farmers and producers. This way we also reduce food miles and support vibrant, resilient communities.

The business is dedicated to reducing food waste through innovative production techniques and portion control measures.
By optimising our processes and repurposing surplus ingredients, we minimize waste.

Previously, development in retort was very much concentrated on Economy meals, but with Foodcase's modern technology and expertise, ambient meals are appropriate for premium cabin classes. We look forward to upgrading your meal options and at
the same time changing old perceptions and bringing delicious food for all budgets and culinary styles to every cabin and service.

Religious meals

At Foodcase International, we understand the importance of catering to passengers' diverse religious dietary requirements. That's why we offer a range of certified Kosher Meals (KSML) suitable for all cabins. Our KSML options are prepared in accordance with strict kosher dietary laws, ensuring they meet the requirements of Jewish passengers seeking kosher-certified meals. These meals provide peace of mind and allow passengers to adhere to their religious dietary practices while traveling.

We also provide certified Halal Meals (MOML) for passengers adhering to Islamic dietary laws. Our MOML options are prepared in compliance with halal standards, making them suitable for Muslim passengers seeking halal-certified meals. With our Halal Meals, passengers can enjoy inflight dining without compromising their religious beliefs.

We offer a variety of other religious meals, including (HNML), Hindu, also (AVML), Asian vegetarian meals which cater to a wide range of religious dietary requirements. These meals are crafted with care to accommodate the dietary preferences and restrictions of passengers following Hindu and Asian vegetarian dietary requirements.

Additionally, our meals can be customised to be free-from common allergens, recognizing that food allergies do not discriminate based on religion. At Foodcase we are dedicated to ensuring that all passengers, regardless of their religious or dietary needs, can enjoy safe, delicious, and culturally appropriate inflight dining experiences.

Desserts

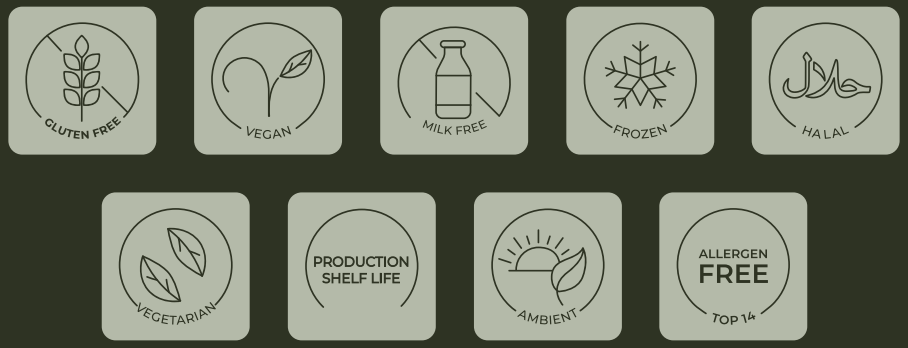

Desserts

When it comes to desserts, we have everything covered, all cabins. Our production facilities are able to produce mousses, crumbles and fruit pots in accordance with dietary needs, Halal regulations and gelatine-free for everyone to enjoy.
We tailor make desserts to suit your requirements and offer a flexible range of pots in different sizes. With a shelf life of up to 540 days, these mini portions of puddings and cakes make a popular and simple sweet option.
For a more substantial pudding option we offer a choice of 70 gr cheesecake, rice pudding and salted caramel and chocolate biscuit servings in stylish easy-to-serve mini pots or entramet style with accompanying sauce and garnish.
